### GRAYLING MAN FOUND WITH LOADED GUN IN CAR

For carrying a loaded gun in an automobile, Robert Bancroft, of Grayling, was arrested by Conservation Officers Harry Souders and Jerry Lark. He was tried in Justice court Saturday and fined \$25 and costs with the alternative of spending 30 days in jail. Bancroft was arrested in a deer area about three miles east of here in company with Barton Wakeley.

Conservation Officers Souders and Lark found the gun in the car belonged to Bancroft, and he was arrested on two counts, carrying a gun without a license and having a loaded gun in an automobile.

He paid his fine and was discharged. Wakeley was not held.

### A RECENT INVENTION

The World's most spectacular Calendar—an invention of a mathematical genius, is said to be the first one ever perfected to display the correct number of days of any month of any year.

By turning the wheel on the back as one would turn the combination on a safe, this device may be quickly set to display on the front, the calendar for any desired month of any year from 1753 to the year 2000.

Or you may turn the wheel to set the calendar for your birth date and read your own Horoscope through a series of six separate windows on the Dial.

For years scientists and inventors had been trying to perfect a calendar to extend over a long period which would show a single month at a time with its exact number of days.

This seemingly impossible feat has now been accomplished. It is stated that the inventor spent more than four years of continuous study and experimentation to perfect this wonder calendar.

### N. B. C. ORCHESTRA AT SPIKES

Jimmy Raschel and his N. B. C. orchestra that appeared for the first time last night at Spike's Keg-O-Nails, made a great hit. There was a fine crowd present to enjoy the music and dancing to this famous orchestra. "Lazy Bones" Bacon was one of the high-lights of the evening and kept his audience smiling and laughing and in the height of merriment. They appear again tonight. Reserve a table and come out and enjoy an evening with these famous entertainers.

They also appeared at the Rialto Theatre last evening and will appear again tonight at 9:00 o'clock with a complete show.

## Rogell's All Stars At E. Jordan Oct. 5

East Jordan—Word was received here Monday morning by Ed. Rouling, of the local Chamber of Commerce, that Bill Rogell's all-star American League barnstormers, will play a Northern Michigan All-star team on the Fairgrounds diamond here, Wednesday, Oct. 5th, at 2:00 P. M.

The All-stars will present players from four American League ball clubs, including the Cleveland Indians, Detroit Tigers, St. Louis Browns and Washington Nationals. The complete roster of fourteen players includes: Krauskas, hurler of the Washington Nationals; Roy Hughes, infielder, St. Louis Browns; Dennis Galehouse, pitcher, and Bruce Campbell, outfielder, Cleveland Indians; George Tebbetts, Mark Christman and Rogell of the Tigers; Roy Cullenbine, Benny McCoy and Archie whom the Tigers brought up from the Toledo Mud Hens this month; Barney McCoskey, hard hitting outfielder, Beaumont, and Frankie Reiber of Toronto. Rogell also stated there is a strong possibility of Rudy York coming with them.

The game will conclude a two-day tour for the All-stars, who play in Bay City Oct. 4th, coming here that evening, and leaving for Detroit immediately after the game next afternoon.

One of the outstanding players to appear is Bruce Campbell of the Indians. He is the boy who was flat on his back three times with spinal meningitis, but each time fought off the dreaded disease, coming back to the lineup and maintaining a .300 batting average. With him will come Denny Galehouse, one of Cleveland's ace pitchers. Roy Hughes of the Browns is a former member of the Indians who went to St. Louis in the Rollie Hemley deal last winter. Joe Krauskas, Washington's ace southpaw, and Tebbetts are the probable opening battery.

Selection of the Northern Michigan All-stars will be made this week, with tickets going on sale in various cities Wednesday.

## Frederic Parties In Blazing Truck

### WOMAN SEVERELY BURNED. CHILD UNHURT.

Mrs. Leo Bindschattel, 27, of Frederic, suffered first and second degree burns about the head, chest and arms and is in a serious condition in the hospital. Her husband, Leo, 34, was treated for burns about the head and hands and released. This occurred Sunday evening.

Bindschattel and his wife, accompanied by their two children, Kendall, 3, and Lyle, 5, had returned to their home from a ride into the country and had gone into the house, leaving the two children in the truck. Shortly afterward, Mrs. Bindschattel discovered the truck ablaze, and calling her husband, proceeded to save their son, Kendall, from the blazing truck. Their other son, Lyle, had in the meantime left the truck and gone into a neighbor's yard to play.

Not aware of this fact, Mr. and Mrs. Bindschattel mounted the truck and went into a neighbor's yard to play.

The youngest child, made frantic efforts to get into the blazing truck in an endeavor to find the older child. As a result, Mrs. Bindschattel and her husband suffered severe burns before the missing child appeared. The younger child narrowly escaped suffocation and escaped with only slight burns. The cause of the blaze has not yet been determined.

The topics under discussion will include the State Parks, Hunting and Fishing, Protective Health Measures for Tourists, Highways, and Roadside Parks.

### In the Editor's Mail

Mr. Editor  
Grayling Avalanche  
Dear Sir:

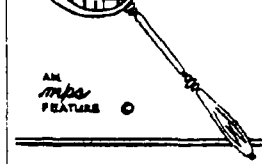

The following rates for residential electric service go into effect in the Cadillac district of the Consumers Power Co. this month. Compare them with the rate you are now paying here in Grayling for the same class of service. It doesn't make sense, does it? Why not do something about it then.

Oh yes, the rates:  
First 15 KWH (Kilowatt hours) ..... 5c each  
Next 15 KWH ..... 4c each  
Next 45 KWH ..... 3c each  
Next 125 KWH ..... 2c each  
Balance of bill ..... 1 1/2c @  
If electric water heater is used the first step is 1c @ instead of 1 1/2c @.

Figure your present bill at these rates and see how much too much you are paying to the Utility serving you here in Grayling.

Sincerely,  
C. M. Church.

Non-partisan News Letter  
Michigan Press Association

By GENE ALLEMAN

Lansing—While local communities look to Lansing for financial aid to solve their problems, Michigan is relying more and more upon a highly centralized federal government at Washington.

The social security system of taxes collected by the federal government and returned to the states, is one example. Under this setup the aged are guaranteed a small pension, while unemployed persons receive compensation during an interim following loss of work. Uncle Sam gets the money; the state spends it.

The newest evidence of this trend is the action of the Michigan State Medical society in annual session at Detroit this month. Among the policies approved was federal aid to states for the development of public health programs. Poorer communities would be assisted by the state, but the federal government would be expected to step in when the state is unable to meet such emergencies.

Call it state socialism or what not, this trend is commonly accepted by the public.

### Hospital Insurance

In the files at Washington is a gigantic health insurance scheme, similar to the social security system, whereby \$800,000,000 would be spent annually to bring the benefits of medicine and hospitalization to the masses.

The recent WPA survey of the National Resources Council showed that one-third of all American families had incomes of less than \$130.

You can't pay many doctor bills on that income.

Whereas the Washington plan, set to be sponsored by the President, would finance itself out of new taxes, the Michigan State Medical society favors hospital insurance as a community project. Also advocated is a plan to set up a medical finance service in each county to assist persons needy of medical care.

### Education Next

If federal aid is needed for old age pensions, unemployment compensation, medical service and so on, how about federal help for our public schools?

With the National Education association had its say, Washington would be rolling out funds for education, too.

Pending in the last session of Congress was the Harrison Thomas bill for federal aid to education. Government subsidy for the public school is favored by such organizations as the American Federation of Teachers, American Association for Adult Education, Progressive Education association, American Federation of Labor, Committee for Industrial Organization (C.I.O.) and the railroad brotherhoods.

Washington would release funds to states only if the latter fulfilled certain requirements. Among the bill's opponents is J.

B. Edmonson, dean of the school of education, University of Michigan. He states:

"If we desire to defend the traditional freedom of state and local responsibility and initiative, the Harrison-Thomas bill should be amended so as to provide a grant of funds without so many strings attached."

### \$30 Every Week

By this time it looks like "state rights" will be soon as extinct as the dodo-bird.

Government aid has no limits. Take the newest panacea for national recovery, old age pensions, and what not—the \$30-a-week-for-life plan, sponsored in Michigan by the Rev. O. James Crews, pastor of the Temple Temple of Light, and John H. Marolf, former newspaper publisher at Midland and Iron Mountain.

Like the California "\$30 Every Thursday" scheme, which proved to be the ballot downfall of Senator McAdoo, the Michigan plan calls for \$1 warrants on which a 2 cent stamp would be affixed each week during an entire year.

Merely by declaring officially that the warrants would be accepted anywhere in Michigan as legal tender, the Reverend Mr. Crews is confident that millions of dollars could be raised for pensions, and nobody would lose a dime.

But before you get too excited, consider these additional points: (1) Dues of 1 cent a day, \$3.65 a year, are sought by Mr. Crews; (2) In 1932 Mr. Crews ran afoul of the law in Detroit where he served a prison sentence of six months.

### Month-Long Fair

Having staged the biggest state fair in national history, at least in point of paid attendance, Frank N. Isbey, Detroit's \$1-a-year manager of the Michigan State Fair, is out to set a new record in 1939 with a month-long exhibition.

In 1938 the fair attendance was 204,146.

Last year, using Hollywood and radio stars as a lure for young people and insisting that everyone should pay a quarter to get in, Isbey boosted the attendance to 421,393.

This year, with a 16-day event at which the emphasis was high class entertainment for little or nothing, Isbey ran up the total to 728,947. It was a national achievement, topping Wisconsin's 624,401 and Minnesota's 548,534.

WPA funds are being sought to provide 45 percent of the \$5,000,000 cost of an automotive building, a 4-H club building, women's building, new horse barn, sheep and swine barn, general exhibits building, and beef cattle exhibition hall.

All of this is quite an undertaking, but in Detroit they say that Isbey can do it—if anybody can.

### CONTRIBUTE TO SUPER DIXIE HIGHWAY FUND

The donations by the following persons provides for the fulfillment of Crawford County's contribution to the Super Dixie Highway association for necessary expenses in carrying this highway to a conclusion. The Super Highway will extend from the Michigan Soo to Miami, Fla., with a branch highway from Atlanta, Ga., and extending to New Orleans, La., on the Gulf of Mexico.

This proposed military highway will be a concrete double lane route with a parkway in the center throughout the entire highway. It is understood that the United States Government has set aside money so that each of the nine states through which the road passes may complete this big undertaking.

THURSDAY, SEPT. 29, 1938

THE WORLD has had a most remarkable demonstration during the past week on the efficiency of the radio as a news and editorial agency. Broadcasting agencies have brot to the people all over the world the very latest news of Europe just as completely as tho it were domestic news. High type journalists doing duty right in the front ranks in the capitals of the affected nations have told American audiences the very latest happenings almost hourly, day and night. And ever conversations were held between commentators of this country and those of foreign nations almost as freely as tho they were sitting around the same table. Every big development was brot almost as soon as it occurred. Hitler's speech Monday afternoon, lasting an hour and 17 minutes, listened to on command by Germany and by scores of nations, came in clearly. And soon thereafter commentators were giving its analysis. There is every reason to believe that those of America who follow these broadcasts know with more certainty the ACTUAL situation between the people of Czechoslovakia and of Germany than the people of those countries themselves. It truly was a most wonderful revelation of the possibilities of radio.

LISTENING in from the sidewalk and reading articles bearing the German-Czechoslovak

facts and then to listen to Kelton-born's analysis of the news is most highly edifying and intensely interesting. It looks very much to us that Hitler has about run his course. He is engaged in a job that is so foreign to his temperament that he, to us, has the earmarks of a misfit. When he so far loses himself that he must resort to loud talk and shouting in his diplomatic conferences he strikes us as being out of his class. Mr. Keltonborn expresses it in this way—more or less Hitler may have been a high class paperhanger in Austria, and he may be sincere in what he is now trying to do but he lacks the intellect it requires to administer an empire. In view of pending promised events it looks as tho Mr. Hitler would have to unleash his dogs of war. Not to do so would belittle him before his own people. And to do so means that he will have to fight not only Czechoslovakia, but France, Great Britain and Russia as well. It will be remembered that during the World War Italy at first leaned toward the Central powers but eventually swung her strength toward the entente powers. In view of this fact, can Germany be certain that Italy will not again desert her. Should it happen Germany will be almost alone to fight Europe's greatest nations. If Hitler back down in his demands, his own people will, we believe, eventually back down on him. If he starts war, we believe he will be defeated. It is bound to be a bitter and vicious contest, wrought with terrible destruction and heavy loss of the youth of those nations involved. In our mind we look at Hitler much as we would a blind handit-brave while he has a pistol poked into your ribs, but a coward when out-matched.

Mr. and Mrs. George Schley returned to their home in Indianapolis Thursday, after spending several weeks here. They denied that the chill of fall weather prompted their leaving at this time; it was business matters that called them away. The Schleys love the north and have had a good time fishing this month. And some of their guests too have had some good catches. And everyone knows what that means—all is well when the fish bite.

Jiminy Raschel is a favorite in ballrooms and hotels all over the country. You'll have an opportunity to see and hear his band at Spike's on Sept. 28 and 29.

The coloring of the trees of Northern Michigan will be at its height over the coming week end. They are passing into their most beautiful color stage right now and it would pay people to travel far to see them. Unlike the trees in most sections of the state, here they are mixed in and banked by pines of varicolored greens, that complete a picture that is nowhere surpassed by nature. Invite your Southern Michigan friends to spend a few days in the north during this natural color show. In a couple of more weeks the leaves will be passing into the somber browns and soon thereafter the trees will be completely bereft of their leaves.

Mrs. Alex LaGrow returned from a two weeks vacation trip Saturday during which she visited her 90-year-old mother in Tecumseh, Ont. The aged lady on that day had paid a visit to her dentist and had three teeth extracted. She said a little pain from having a few teeth pulled didn't mean anything. One of her cherished pastimes is reading and she reads much and right at the present time is kept busy on the European situation.

### Why Wires Do Not Shock Birds

The reason birds on live electric wires do not get shocked is that when they sit on an electric wire they are not grounded, and hence no circuit is produced.

Work on the new Grange hall is going along nicely, the members and friends giving as liberally as their means would allow, until now when the windows are in place and last Saturday the glaziers finished putting in the window panes. Before the putty could harden, someone scratched it out, doing several dollars' worth of damage. It can be assured that the perpetrator, whether child or adult, is either of low type of mind or have had little or no home training, or both. There was nothing smart about it and if it can be found out who did it, an example should be made of him. He should be made to replace any damage that was done. And further, should be made to contribute to the building fund of the Grangers. If it was the work of a child, his parents should be made to pay the damage.

The school party of last Friday night was well attended, as 105 students paid their 5c and enjoyed the party. In fact they enjoyed it so much that before it was time for the official end of the party the dancers were tired out and had gone home. Swing music is effective in one way at least. The music box furnished the orchestras and the records were turned over almost before they had stopped spinning. Mr. Poor was in charge.

The Junior-Senior Council has been expanded to take in all of the upper six grades, becoming a Student Council. The upper classes are represented by more members than the rest. The membership of the Council is as follows:

**PERSONAL TRIUMPH FOR FITZGERALD**

The renomination of Governor Frank D. Fitzgerald in Tuesday's primary is a great personal triumph for Eaton county's leading citizen. He started his campaign late, as compared with the early start of Judge Toy and single handed and alone he built up the state-wide sentiment that swept him into the lead. For example, all the observers declared that between the democrats and the apparently well organized Toy forces the upper peninsula was lost to Fitzgerald. And you know what happened. Starting from scratch, late in July, the great north began to respond to Fitzgerald's warmth and mine run campaigning technique, and on Tuesday the totals showed that he carried all but three U. P. counties and lost two of these by the narrowest of margins. And he did it alone. It was the same way in Judge Toy's home county of Wayne (Detroit) which geographical psychology was transformed by the Toy board of strategy from a myth to a threat and gave Toy much of the up-state strength that he had, viz., that Toy's Wayne support made it possible for an outsider to defeat the Detroiters. The claim or wish did not allow for Fitzgerald's convincing and lower bracket style of campaigning. His state majority is greater than Judge Toy's total vote—the greatest comeback in the history of Michigan.—Charlotte Republican Tribune.

Every Knight of the Apple must promise, on his honor, to be true to Normandy and to Norman products, particularly apples and cider.

**MUST HAVE PERMIT TO MAKE WINE**

Detroit, Mich.—A warning that it is illegal to make wine for home consumption without informing the Federal Government that such wine is to be made was issued here today by Fred W. Beltz, Supervisor of the Michigan-Ohio District of the Alcohol Tax Unit of the United States Treasury Department.

Beltz pointed out that while it is possible for the head of a family to manufacture up to 200 gallons of wine a year for the use of himself and his family, he must notify the tax unit at least five days before beginning such manufacture.

"Under federal statutes," Beltz said, "any wine produced without sanction of the federal authorities who are charged with the enforcement of the United States Internal Revenue laws is illegally-produced and is subject to seizure."

Beltz' statement to winemakers continued:

"Although extensive newspaper publicity was given a year ago in connection with this matter, it is believed advisable that the information furnished at that time be repeated in order that persons intending to manufacture wine from the 1938 grape crop

may have knowledge or be reminded of the requirements of the law with respect to the manufacture of wine.

"In the legal production of wine, the law makes a distinction between wine produced for home consumption and wine produced for commercial purposes. Wine for home consumption, if produced by a head of a family in a quantity not exceeding two hundred (200) wine gallons per annum, is not subject to tax, and may be produced in a legal manner by filing a notice of intention to produce such wine with the Alcohol Tax Unit of the Treasury Department at least five days prior to the beginning of the production. Such notice may be filed with no cost at the present time or at any time up to five days prior to commencing manufacture of the wine. Such wine cannot be sold, nor used at any other than the place of manufacture.

"Qualifying to produce wine for sale is considerably more complicated, and the person or firm desiring to do so must first obtain a permit as a manufacturer of wine from the State authorities in conformity with the State liquor laws. After obtaining such permit and before beginning manufacture he must apply to the federal authorities for qualification and approval of his winery premises, as wine for sale can be legally manufactured only on a qualified bonded winery premises.

"All persons in the states of

Ohio and Michigan interested in the production of wines either for home consumption or for sale may obtain full instructions and the necessary forms for complying with the federal laws by addressing a letter or post-card of inquiry to the District Supervisor, Alcohol Tax Unit, Bureau of Internal Revenue, Federal Building, Detroit, Michigan."

**BLUE GOOSE LINES***How would you like to be told---***"YOUR CHILD WAS KILLED TODAY"**

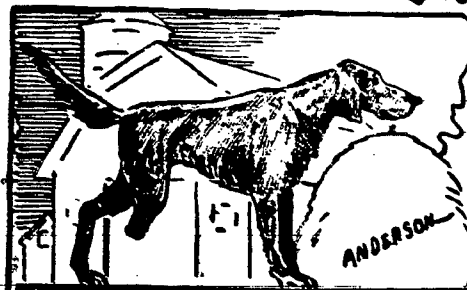

A thing so horrible . . . so unthinkable . . . can't happen, to you! Thus you reason and perish the thought from your mind. But mothers and fathers are told nearly every day, "Your child was killed today" . . . and practically every time, the finger of blame can be pointed at a careless motorist. If it can happen to the other person . . . IT CAN HAPPEN TO YOU! But . . . it won't happen to you or anyone else if you and every one else obey traffic laws and regulations. Merely expressing your intentions of driving carefully is not enough. You've got to learn the laws if you don't know them. You've got to think . . . you've got to keep your mind alert . . . you've got to keep your ears and eyes open to avoid disaster. Above all . . . you've got to drive carefully!
